Speed Test 2: Comparing C++ Compilers on Windows

The original Borland had a history of building compilers that were known for their speed and modern features for the time. While the Embarcadero RAD Studio might seem a bit silly from today's perspective, the underlying compiler was actually quite impressive, both with its features and its speed. (Note, however, that the C++11 features were only present in the 64-bit compiler, not the 32-bit
