Privacy | Internet Society

The Internet Society has dedicated outreach activities on identity and privacy. These are aimed at technology vendors and adopters, to encourage privacy-respecting technology deployment, and at policymakers and legislators to provide the necessary counter-balances to commercial expediency. We also aim to ensure that users are better informed about the benefits of good online privacy, so that

Understanding Your Online Identity: Protecting Your Privacy

For these reasons, digital identity is a key aspect of many Internet policy issues, including privacy, consumer protection goals, e-government services, digital trade, and trust in the digital economy. In short, a trusted digital-identity ecosystem is a critical component of a trusted Internet.
