Incremental Speech Translation: A Layered Chart Approach ...

Abstract. Human speech understanding works incrementally. We begin to process acoustic input before the speaker's utterance has ended. A system capable of performing sophisticated communication in a natural dialogue or simultaneous interpreting, has to work incrementally, too.

Incremental Speech Translation: Jan W. Amtrup ...

Human language capabilities are based on mental procedures that are closely linked to the time domain. Listening, understanding and reacting, on the one hand, as well as planning, formulating and speaking, on the other, are performed in a highly overlapping manner, thus allowing inter-human communication to proceed in a smooth and fluent way.

Incremental Adaptation of Speech-to-Speech Translation

Towards incremental speech generation in conversational ...

Computer Speech and Language 27 (2013) 243-262

Towards incremental speech generation in conversational systems Another aspect of incremental speech generation, identified by Allen et al. (2001), is that people often give feed-back in the middle of utterances in the form of acknowledgements, repetition of fragments or clarification requests. Furthermore, when a speaker is interrupted or
