[Mining and Quarrying in the Ancient Andes - Sociopolitical ...](#)

[Mining and Quarrying in the Ancient Andes](#) focuses on archaeological research at primary deposits of minerals extracted through mining or quarrying in the Andean region. While mining often begins with an economic need, it has important social, political, and ritual dimensions as well. The contributions in this volume place evidence of primary extraction activities within the larger cultural context in which they occurred. This important contribution to the interdisciplinary literature
